SUMMARY

Senior Full Stack Engineer with 9+ years of experience in web and mobile development. Proficient in designing and implementing scalable, reliable applications across the technology stack. Expertise includes frontend technologies (React, Angular, Vue, TailwindCSS) and backend frameworks (Node.js, ASP.NET Core, Spring Boot, FastAPI). Skilled in API integration, database management, and cloud deployment using AWS. Strong advocate for Agile methodologies, focusing on high-quality code, performance optimization, and collaborative problem-solving. Proven track record in delivering results, improving user engagement, and driving system reliability.

SKILLS

EXPERIENCE

Senior FullStack Developer

Cognizant • Feb 2023 – Nov 2024 • Philadelphia, PA

- Engineered a user-centric interface using React and Tailwind CSS, delivering pixel-perfect designs from Figma mockups and boosting user engagement by 30%.
- Utilized Mapbox for dynamic real-time location tracking and route optimization, increasing user satisfaction by 25%, while implementing WebSocket communication to reduce wait times by 15%.
- Developed scalable APIs for backend, optimizing response times by 40% and efficiently handling 1,000+ requests per minute.
- Deployed and optimized applications on AWS (EC2, S3, RDS), supporting up to 1,000 concurrent users during peak hours and enhancing system reliability.
- Leveraged predictive analytics for route optimization, reducing average trip times by 20%, and improved application performance and maintainability using Redux for state management.

Full Stack Developer

VironIT • Jul 2018 – Jan 2023 • Philadelphia, PA

- Developed dynamic applications using React.js, Angular, Vue.js, and React Native, improving performance by 20%.
- Engineered robust backend systems with .NET Core, Node.js, Spring Boot, and Django, increasing system reliability by 30%.
- Migrated a React application to Next.js, improving SEO and performance by 13%.
- Streamlined GraphQL queries using Express middleware, boosting data retrieval by 25%.
- Achieved 90% code coverage through automated testing with Jest, Mocha, and Cypress.

Frontend Developer

United By Blue • Jun 2016 – May 2018 • Philadelphia, PA

- Developed and maintained 2 highly interactive web applications using React.js and Angular, increasing performance by 25%.
- Enhanced user experience through responsive design and front-end optimization.
- Resolved over 30 critical front-end bugs, improving system stability by 35%.

Frontend Developer

Spreadknowledge • Jul 2014– May 2016 • Jenkintown, PA

- Built performant applications using React.js, Redux, and Restful API, enhancing performance by 25%.
- Implemented JWT-based authentication, boosting application security by 30%.
- Improved user satisfaction by 25% through optimized UI/UX design with dynamic content loading.

EDUCATION

Bachelor's Degree in Computer Science

Indiana University of Pennsylvania • Indiana, PA • 2014
